

### STIDUNAL: MISSION AND PURPOSE 1. Protection, promotion & actively supporting <u>healthy</u> <u>environment</u> in the Alusiaka area for all people living and working there. 2. Support, promote and participate in sustainable use of natural resources in this area By: Removal of waste from the village & E & A on healthy • environment Supporting (marine turtle) ecotourism and research Promoting alternative livelihoods in sustainable income sectors: diversification in tourism, bakeries, transportation, handicrafts, agriculture, etc Mapping/ measuring / monitoring (the potential of ) natural resources in the Alusiaka area Developing synergies with local, national & international organizations Undertaking economic activities in order to reach goals above.

# TRADITIONAL ROLE OF THIS COASTAL COMMUNITY

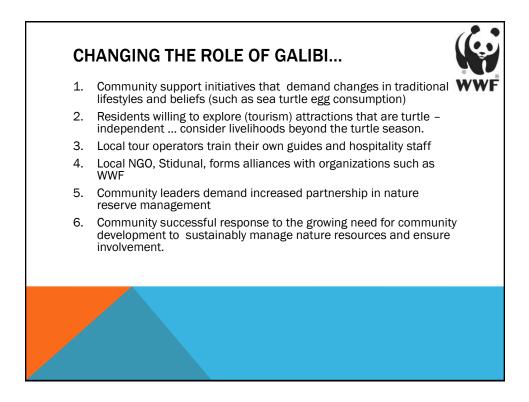

- 1. Mainly known as a fishing community
- 2. Limited role in conservation
- Linked often to the unsustainable exploitation of turtle products
- Little or no role in development and management of nesting habitats
- 5. Growing marine turtle & culture based eco-tourism
- 6. Growing interest in community development

### WHY WWF SUPPORT?

- Promote ownership of the resource
- · Utilize local knowledge and expertise in management
- · Work towards sustainability
- Demonstrate willingness to trust local people in conservation
- · Build capacity and broaden experiences
- Divert conservation funds to communities rather than to non-local organizations.
- Recognize local communities and strengthening them to be stewards in sustainably managing their natural resources; especially sea turtles!
