

# AFEEPO 2006-2018

Anse Fromager Eco/Environmental Protection Organization

2018 WIDECAST AGM

Matura, Trinidad WI

18 -21 March 2018

# HARNESSING THE ENERGIES

**Formation of the organization**

# ENGAGING THE COMMUNITY

- Staging a concert to entertain and inform
- Using the media to full effect
- Community outreach and sensitization
- Cleaning the community to control dengue
- The Division of Health confirmed the reduction of the disease after the clean up

# ADOPTING THE COURLAND RIVER

The Courland River was something to be proud of

At one time the river flowed like this

There was abundance of life in and around the river

Men had to dive to catch crayfish

There was no dumping along the river bank

## **River Condition at present.**

## **Clean up of River Bed.**

# SCHOOL PARTICIPATION GOLDEN LANE GOV'T PRIMARY

# REFORESTATION

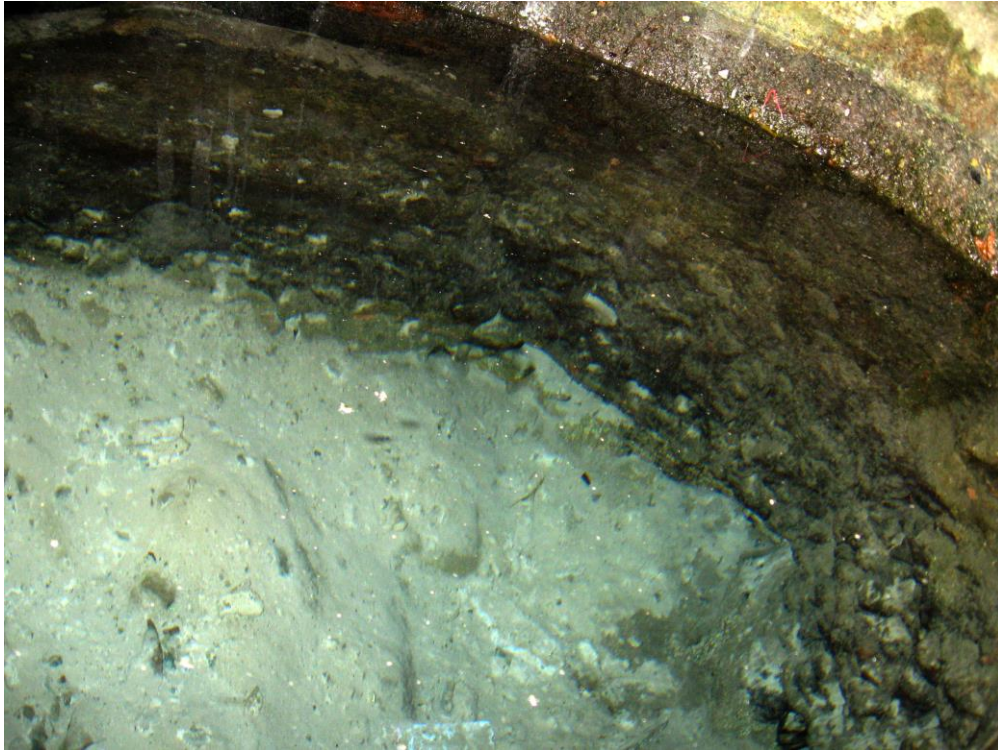

# RESTORATION (BEFORE)

# RESTORATION (AFTER)

# TURTLE CONSERVATION

- A short story
- Joining the conservation program under TVT 2014
- Sharing and caring
- Some challenges
- Positive impacts

# TURTLE CONSERVATION

# EXPECTATIONS

- To continue the programme
- That Tobago should do its own data collection and analysis
- That a group be made responsible for accessing funds for the program in Tobago, or, better still, that each group handle its own funds.
- In my area especially, I would like to see more persons monitoring the beaches.
- Even if there is volunteerism when funds are available everyone should benefit
- All sports on nesting sites be prohibited during nesting season

# ACHIEVEMENTS

**THE END**
