Our Team at Almond Beach responded to a report of a passenger boat on fire, 6 miles East of our Field Station. Our Team was able to rescue a woman who was still holding on to the boat. They took her to Mabaruma, and on the way made reports to the Police and Coast Guard. The Regional Chairman was contacted to mobilize ambulance, that took her to the hospital. Other residents of Almond Beach also went out to render assistance.

Details emerging, but we're hoping all are safe.
